## Container Table

MARCEL WANDERS STUDIO, 2001

The Container Table, designed by Marcel Wanders studio, is the foundation you build your home around. This lightweight design is easy to move around, but once it's found its place and you fill up the foot with sand or pebbles, it's all strength and stability. The Container Table offers endless compositions with different shapes, sizes, colours, and materials. It's a fully versatile system suitable for any space: your home, office, or public space. The Container Table is the humble servant in an interior; the foundation you build your home around.
