
Hybrid

DIVANI 2020

Antonio Citterio

Descrizione

Hybrid è un sistema di sedute modulare estremamente versatile e dalla componibilità pressoché infinita. Ruolo chiave nel progetto ha la dimensione tessile che riveste completamente la generosa imbottitura, assoluta protagonista, entrambi elementi tipici dell'indoor, che con Hybrid arrivano con determinazione nell'outdoor. Da qui il nome della collezione, che si propone come vero e proprio anello di congiunzione tra l'interno e l'esterno della casa. Hybrid rappresenta infatti il perfetto elemento d'arredo per climi e spazi che si definiscono nella continuità tra dentro e fuori, ambienti naturalmente aperti a una dimensione en-plein-air, ma anche spazi living integrati a terrazze o giardini. L'unione degli opposti non avviene soltanto attraverso la vista, bensì anche col tatto: Hybrid garantisce infatti nell'outdoor il comfort tipico dei tradizionali imbottiti da interni, grazie a una seduta a materasso, estremamente soffice e accogliente. La cuscineria è realizzata con materiale per imbottiture a diversa densità, studiato per accogliere piacevolmente il corpo e sostenerlo allo stesso tempo, senza sprofondare. Le strutture portanti sono pressoché invisibili e la seduta sembra fluttuare a pochi centimetri dal pavimento. Per garantire ulteriore comodità alla seduta più profonda, lo schienale basso si può innalzare con un cuscino poggiatesta supplementare.

Informazioni tecniche

Struttura

pressofusione ed estrusi d'alluminio con verniciatura a polvere poliestere

Imbottitura

poliuretano sagomato a densità differenziata, fodera in fibra di poliestere con trattamento idrorepellente

Doghe seduta

fibra di vetro

Puntali

materiale termoplastico

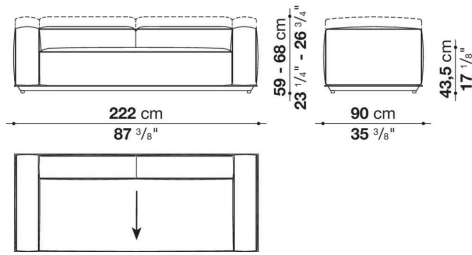

Telo di copertura impermeabile

tessuto PES monospalmato su un lato PU

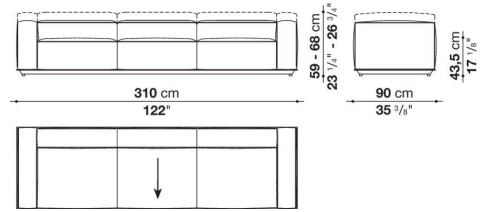

Rivestimento

tessuto in categorie limitate (con profilo)
